

Be the one to save a life.

Jeff Tohl

In December of 2006 Jeff was diagnosed with a rare form of Non-Hodgkin's Lymphoma. As part of his treatment, Jeff requires a stem cell transplant and none of his family members are a match to donate. A patient is most likely going to match someone of a similar ethnic group and because the Jewish community is underrepresented on the registry, Jeff's challenge is even greater. He is a husband, a father, a son, a brother and a friend to many. He needs your help. You could be the miracle and save a life ! Join the registry today.

Thousands of patients depend on the Be The Match RegistrySM to find a donor who can give them a second chance at life. You have the power to heal, the power to save a life. Take the first step. Join the registry.
